

BAD NUMBERS

Terrible! I just found out that all the numbers were invented by Islamist Terrorists! Real BAD! Time for a change! Only I can fix this.

Checked with my Secretary of State. He confirms it. Numbers like 1 2 3 4 5 – even zero! All from the Middle East. This is the worst news!

This was on Fox News last night. Not the dishonest media. Seems like Obama's people knew all about this all the time. Did nothing! Pathetic!

We've been working with un-American numbers all the time. In our great colleges. Yale. Harveys. The CIA didn't have a clue! Incompetent!

All our science infiltrated. Disaster! No wonder the Chinese are laughing at us. Climate change? Not with those numbers! Total HOAX!

Bad things happening on Wall Street? Economy weak? Surprise! I have said this all along – check the numbers! I am always right!

First thing to do – stop using those numbers! I've signed an executive order. From today we use words. One two three. Nil instead of zero.

And that's just a first step. We will make American numbers great again #MANGA. I've asked Kellyann to create a new system. She's no bimbo.

OK so maybe she is a bimbo. LOL! But she sure knows how to motivate our greatest minds. The terrorists will soon stop laughing at us. #MANGA

FBI, CIA, DNC - they all knew about this. Lied to the American public. Nils. Zeros in hands of ISIS. Send them to the desert for beheading!

I am the only person who can fix this. My IQ is one of the highest. Just watch and learn – and I mean you, Obama! Loser! Total disaster!

I'm talking to our tech guys about texts and tweets. One hundred forty characters not long enough now. I say we need two hundred. More text

for your buck!
