

A NEW O'CLOCK

As your President, I've got to make every second count. America will be great again and I will be the one to do it. Every minute of the day.

Been looking to make things simpler for you hard-working folks. Got the dumbest and worst things ever in my sights. Like the clock.

Ever tried to work out how many minutes in the day? It's real tough. Bad! What kind of dumb system is this anyhow? Terrible!

Called my Secretary for Education into the Oval Room. Got a great ass, but she's no airhead. Get me the stats on the clock, I told her.

Off she goes. Great heels. Texts me an hour later. Smart cookie. 60 seconds to the minute. 60 minutes to the hour. 24 hours to the day.

Gee, my head hurts just thinking about that. But here's the worst fact. The guys who dreamed this up weren't even American! No, sir!

They were Syrians. Iraqis. Arabs. Extremist terrorists, the worst in history. ISIS. And we're supposed to stick to their rules? No way!

We didn't build our great nation so Islamic Terrorists tell us when to get outa bed. Obama just let ISIS walk all over us. Laugh at us!

Incompetent. No idea what he was doing. Should be locked up for what he's done to the great American people. Total disaster. TERRIBLE!

It gets worse. There's gotta be 7 days in a week. 4 weeks in a month. Or maybe 5. 12 months in a year. Dumb! Total garbage. A mess.

How am I supposed to remember all that? Worse - there's 52 weeks in a year. 365 days. Or maybe 366, say scientists. Chinese hoax!

This is BAD! No way is it home-grown American time-keeping. Our hard-working moms and dads would be turning in their graves.

I'm going to change all this and make American Clocks work again. I'll be the greatest force for good in American history - ever.

Here's my plan. I'll put out an Executive Order. The dumb Liberals and the media will squeal. Let them! They're an absolute joke anyhow.

Here's my plan. 100 seconds to the minute. Ten times ten. Period. None of your Al-Qaeda-inspired unnatural numbers. #MACWA

They'll be shorter seconds than now. Shorter, but more of them. Win-win. Time for a change! I will do it for America. You know it!

100 minutes to the hour. 10 times 10. Even the dishonest media clowns can understand that. But maybe not. They are a DISGRACE to AMERICA!

Fact: millions have voted for me as the greatest politician in American history. This is the evidence.

10 hours to the day. No more. Numbers you can count on your hands. So long as you're not some cripple. Or some sleazy Democrat clown.

7 days per week. Says so in the Bible. Can't change what the Almighty set down, no way. Many say that nobody does God's work better than me.

5 weeks per month. Not 4, maybe 4½, for when the Latinos feel like having some siesta time. Straight five all the way down the fairway.

So what does that leave? 10 months. Neat. But I got one of the highest IQs. I reckon we're 15 days short. And I don't get it wrong. Ever.

Listen up, greasy-haired media losers! Here's some real news for you to report. My new Executive Order will be good for all Americans. Fact!

Fact, I'll cut the working day to 5 of my new Trump hours. That's 3 hours less than now. **THREE HOURS LESS.** Do the math, dummies!

Fact, even that racist Obama can add up my minutes and hours. He's got plenty of time to do that now. The American people has spoken. **LOSER!**

Fact, we get 15 extra days in a year. Am I the greatest businessman of our times or am I the greatest businessman ever?

What we gonna do with 15 days? We're gonna build us two walls. One against the Mexicanos, the other against those 3rd-rate losers in Canada.

Fact, America won't be dancing to the ISIS tune any more. They can swarm all over Europe but they won't reach us. Who's laughing now?

What we gonna call this new o'clock? We got Trump Tower, we got Trump International Hotels, golf-courses. So Trump Time seems good to me.

Fact: Trump Time will rebuild our industry, create jobs, heal families, kill freeloading. Trump Time will be the best thing in history!

Fact: we will build a strong new clockworks industry. Here in America. To keep American time. Precision built. No cheap Chinese imports!

It's time to break with the **CORRUPTION**, the **BAD JUDGEMENT** and the **FAILURES** of the past! It's time to have a new **CLOCK** and a new **AMERICA!**

Many are saying I'm the best 140 character writer in the world. I am the least boastful person in the world, but I think they're right.
