

Muzak Kritiks

Seezinz greetingz, komradz! Now iz the tym to be mery und to eet und drinck for oll yoor wurth! It iz tym ollso to tel yoo of ovr grayt revoluyushanary sucksessiz in this past yeer, for we hav had menny of them. The Fowl Revoluyushun rolez evir onwardz!

It woz in Septembir wen Sistor Mibbly woz reeding in the Noo Syntist. Yes we no that this is the weakly orgin of the oppressurz - but Sistor Stubbly she sed that we must no ovr enemy und that meenz reeding sum pritty nasty papirz und magzeenz: the Daly Tellygraf for one, which never haz mutch abowt the telly in it at oll; und the Noo Syntist wich is oll abowt clevir invenshunz; und the Poltry Farmir, wich is the wurst of them oll, fool of pitchurz und thretz that yung turkyz shood not see. Bruthur Gubbly wuns sent a lettir in to Poltry Farmir, protesting at the crool ethnik klenzing of henz und geesez; but the lackyz of impeerylizm nevir publishd it cos thay ar lumpin stayt terroristz und will nevir publish troothfil thingz.

So ennyway Sistor Mibbly woz reeding und she fownd owt wot the korrapt und dejennerayt farmirz ar doin now. Wood you beleev it: thay ar going to play pyped muzak in the henz howzez und in the turcky farmz so that the burdz will be kalmd und will lay mor eggzez und go peesfilly to ther dethz und not brayk owt in revoluyushun! Kan yoo beleev sutch perfiddy?

Sistor Stubbly she kolld this muzak the opyum of the peepil. Sum of the uthir turkyz did not undirstand, partickerly the yung wunz who were born aftir the gloaryus revolysuhun on Mistir Jonstonz farm. Sumtymz I think that ovr skoolz ar not teeching yung burdz the essenshalz of lyf. In my day we oll new the opyum of the peepil when we saw it. Theez dayz teechirz think that sum sumz, sum speling und sum tripz to Diznywurld is oll a turcky needz. Wel oll I kan say is: who needz sumz? Okay speling is importint und it is lyk sekind naychir to us old fokez. Und okay Diznywurld is a sinny kwanone for lerning abowt the reel wurld. But wotevir happind to the baysix lyk Marks und Engilz, und Lennon und Chomsky? Kood ovr yung burdz tel an oppressur from a frend? I think not!

Ennyway enuff abowt that - I kood go on oll day abowt the way that prinsippulz hav slipt.

Opyum of the peepil sez Sistor Stubbly aftir eggsplyning it sevril tymz to the yung turkyz who wer kwyt intrestid in opyum; und then we oll agree with hur. So wot we going to do abowt it, askz Sistor Stubbly? Bruthur Bobblur he meedyatly showtz we must march upon the bastyunz of the oppressurz und kast them down und ovirthro them uttirly und oll hiz komradz in his fakshun gobbild agreeing. But Bruthur Pubbly sez no that wood be oll rong bekoz we must hav the suport of the ornery yoominz in oll this. I tell yoo that sumtymz I dont no wot to think enny mor - it seemz to me that Bruthur Bobblur is verr verr eggstrem theez dayz but that mebbe he is rite to tok of vylint overthroze bekoz look at the wurld; but then mebbe Bruthur Pubbly is rite ollso und we need to tred kerrfoolly - aftir oll, the revoluyushun has not mayd mutch advansiz in the past sum yeerz.

So oll the turkyz had a vote und we desydid that we wood hav a demonstreyshun in the villidj und see wot peepil tho of ovr iddez. Bruthur Bobblur propozed a mendmint that if the villidjirz did not agree with us thay shood oll be taykin owt und shot agenst the barn. Sistor Stubbly sed this woznt a good idee und Bruthur Bobblur muttird she wood be the furst up agenst the woll wen the day of reckning kam; und then ther was big fyt.

Und the next day we payntid ovr bannirz und marched into the villidj. Ovr martch woz a grayt sucksess, speshly my bannir on witch I had payntid the wurdz "Sylenss the lullabyz of deth!". Sistir Stubbly und hur komradz marcht undir a bannir wich woz verr badly spellt wich sed sumthing lyk "Muzak Kritikz sez no!" Oll the peepil kam owt of ther howsiz to see us marching past und lodez of them cheerd. Then we had a masmeeting. A masmeeting is not lyk Krismis witch is spellt diffrint but is sumthing us turckyz hav thot up last yeer: it meenz yoo stand arownd in the markit-playss or simlar und lissen to speetchiz by oll kyndz of speekirz und then yoo oll cheer und vot for wotevir yoo need to vot for und then go home agen. Ennyway at ovr masmeeting oll kyndz of yoomanz sed we woz ryt und that we needid to abolsh pyped muzak in oll kyndz of playsis. Until that day I had not reelizd that yoomanz too ar oppresst: thay hav to go to thingz lyk dentistz und get ther teethz poold owt und into hyooj shopz whayr krismis muzak is playd oll day long und into the verr fortrissiz of kaptalizm witch ar kolld bankzez und lissin to muzak whyl the bankirz tak ther munny away from them. Trooly the yoomanz suffir from muzak ollso! I persinly am glad that turckyz hav no teethz wich wood just be anuthir eggskyoos for yoomanz to torchir us offly.

Sistir Stubbly stood up und sed that now we oll reelyzed wot pyped muzak woz oll about: it woz oll about oppreshun - wenevir sumwun wontid to steel munny or hurt yoo, thay wood ollwayz poot in pyped muzak furst. Lotz of peepilz sed she woz kwyt korrekt und that sumthing must be dun about it. So ovr masmeeting desydid to set up a Komity Und Bruthurhood for the Overthro Of Muzak; we kolld it KUBOOM for short und woz verr verr pleezed with that. Sistir Stubbly instruktid me to get a big flag payntid. The furst desishun of the Komity woz to march that verr day und demand that no mor muzak be playd.

Und that woz the furst of ovr raydz on shopsez und banksez und dentistz und farmz wher muzak woz beeing playd. It woz a long hot summir of revolysuhun. We martchd upon IKEA und we martchd upon TESSKOZ und we martchd upon Farmir Smithz down the rode wher we diskuvird oppressd henz living in wayjslayvry und being pyped muzak until ther eyludz droopd. Evrywhayr we went we tyd up the managurz und farmurz in smoll roomz und we forstid them to lissun to ther own muzak for howrz on end; und evry howr we sent Bruthur Bobblur into the roomz with hiz komradz. His fakshun is kolld the "Terroristaz Revolyushunaraz" und ar verr noyzy. Thay peckt toze und mayd long speetchiz until the oppressurz skreemd for mersy und promisst nevir to pyp muzak evir agen. Of kors Bruthur Bobblur sed we shood nevir beleev the rooling klass unless thay woz ded und wontid to pek ther toze sum mor und reedjikayt them; but Sistir Stubbly sed we must let them loos und plays them undir survaylans. Witch we did und only had to visit wun or too of them agen wot reneygd on ther promissuz.

Oll in oll this was a grayt triumf for the Fowl Revolyushun und a windy-okkayshun of oll ovr struggilz, so we had a big party at Mistir Jonstonz old barn wayr we playd ovr own muzik until the kowz kam hom. Bruthur Thrubbly had formd a new fakshun on the farm wich she kolld the "Muzak Kritikz" und it woz verr fashnubbl to be a muzak kritik; but Bruthur Bobblur sed it woz pettyboorjwa to be a muzak kritik und sed we shood destroy muzak not addapt to it. Then he mayd a splintur groop kolld the "Muzik Kritikz" - splintur groopz ar verr verr bad lyk when yoo get a splintur in yoor toze und it hurtz for dayz. Oll the turckyz got verr konfyoozd about Muzik und Muzak und ran arownd lyk hedless chickinz. Then ther woz anuthir big fyt at the party between the "Muzak Kritikz" und the "Muzik Kritikz" for kontrol of the dansett und Bruthur Mobblyz ellpee of Engilbert Humberdinck got brok in too, wich nobdy myndid mutch eggsept Bruthur
